BARRIER APPLICATION for FOOD PACKAGING

BARRIKOTE 1000

BARRIKOTE 1000 is a specially formulated coating system for barrier applications. Can be utilized as a primer system to improve holdout of topcoat barrier coatings while bringing barrier performance for grease, water and moisture on its own. Coating can be applied using a variety of applicators including rod, blade, airknife, curtain, flexo or gravure.

Typical Properties

	Value
Solids (mass %)	55 ± 1
pH	9.0 ± 1.0
Brookfield Viscosity (cps @20rpm, #2 spindle)	500 - 1500
